Career Objective

Aspiring Full Stack Web Developer currently pursuing BTech in Information Technology. Seeking internship opportunities to apply my web development skills and contribute to real-world projects while continuing to learn modern technologies.

Projects

1. My Personal Portfolio Website

A responsive, animated portfolio showcasing my projects, skills, and resume with smooth navigation and mobile-friendly design.

Tech Used: HTML, CSS, JavaScript

Link: https://personal-portfolio-lalith.netlify.app/

2. Tic-Tac-Toe Game

A fully functional 2-player Tic Tac Toe game with win detection logic.

Tech Used: HTML, CSS, JavaScript

Link: https://lalith-srinivas.github.io/tic-tac-toe-game/

3. Netflix Clone

Built a responsive Netflix login and homepage clone using HTML and CSS, with smooth UI design and layout.

Tech Used: HTML, CSS, JavaScript

Link: https://redscreenx.netlify.app/

4. Surya Collections – E-commerce Web Page

A sample jewellery shop page with product listing, cart feature, and interactive modals.

Tech Used: HTML, CSS, JavaScript

Link: https://surya-collections.netlify.app/
